Western Woods Premier Finishes, Inc. (PFI) Exterior Acrylic Primers 15 Year Limited Warranty

Excellent results can be achieved by a factory application of coatings to lumber, siding, and grade construction materials. Factory-finished lumber, when coated on all sides, stabilizes the moisture content of the lumber, reducing excessive shrinking and swelling of the material. Factory finishing assures a longer lasting and higher quality result than traditional "on-site" application because proper spread rates are maintained for maximum coverage protection. This factory application ensures more complete protection from elements of nature. Failure to read and follow label, technical data sheet, and application instructions will void the warranty.
